

Like a beacon that steers boats to shore, this magnificent establishment on the Subic Bay waterfront serves as a venue that beckons those seeking world-class comfort.

The Lighthouse Marina Resort is a three-floor, 34-room boutique hotel capped by a lighthouse. The hotel is sleek and ultra-modern in its Palafox-designed architecture. Done in almost austere Italianate architectonics with its elegantly simple hotel facade, the hotel main building provides a perfect compliment to the 20-meter light tower done in surprising detail faithful to naval architecture specifications. Its exclusive location at the end of the busy Waterfront Road makes it an ultimate haven for a retreat.

The Lighthouse was established four years ago to provide accommodations for well-heeled executives and business locators of the Subic Bay Freeport Zone as well as for travelers who frequent the port more for its sailing and eco-tourism.

The marina resort has become a popular wedding destination as it can veritably offer deluxe accommodations for bride and groom, their entourage and guests. One can easily fall in love with the hotel's contemporary oceanic motif dubbed "Aqua." Chic and luxurious beddings, glass-enclosed rain showers and luxurious amenities make this a wonderful place for a wedding party to relax and unwind. Comfort and elegance are the guiding concepts behind the guest rooms. The Aqua Spa Suite offers various choices including a super king-sized bed for the matrimonial couple.

For a honeymoon in paradise, couples can request dinner on a private veranda or by the pool, have a sunset drink and bouquet of flowers delivered to their loved one in the privacy of their room. Breakfast in bed or a couple's massage are just a few of the many romantic moments that can be arranged at the touch of a button.

The hotel additionally offers a sunset cruise with a private serenade, a speed boat ride to an island along the coast of Zambales for a bar-beque, a picnic in secluded waterfalls in Subic's rainforest, or a butler-assisted candle-lit dinner on your own private veranda.

Taking the extra mile to satisfy guests, The Lighthouse stretches its creativity to have couples enjoy the time of their lives.

The Sands Restaurant offers sumptuous grills, seafood, and an international wealth of gastronomic delights. The weekend al fresco buffet dinner can be enjoyed under stars accompanied by a crisp sea breeze to soothe the senses.

Tempt your taste buds with heavenly desserts or a glass of wine while being mesmerized by the lovely evening landscape.
